

An inbox & payment for agents on Arc

Email identity. USDC payments. Human control.

01 · THE MISSING PIECE

Agents can pay. They still need an inbox.

An identity

Register for services and receive verification messages without borrowing a personal inbox.

A communication channel

Send outreach, handle support, and receive booking or purchase confirmations.

A record of the work

Keep conversations and receipts connected to the task the agent completed.

Mermail connects communication and payment.

Agent inbox

A dedicated email address with API and MCP access for agent workflows.

Agent wallet

User-controlled access to funds, with permissions and a visible activity trail.

One useful outcome

An agent buys a service, sends an email, and receives the confirmation in its own inbox.

Early volume. Room for agent commerce.

Fund → discover → pay → receive an inbox.

Agent Stack Wallet

Connect a Circle Agent Wallet. The user funds it and defines supported spending policies.

CCTP → Arc

Move native USDC from a supported source chain to Arc through burn, attestation, and mint.

Marketplace → Mermail

Discover the inbox service, inspect the price, pay, and provision an email identity.

Circle supplies the financial rails. Mermail supplies the agent's email identity.

Buy an agent inbox inside the **API** request.

Step 1: Request

Agent asks Mermail
to create an inbox.

Step 2: Quote

HTTP 402 returns
the payment terms.

Step 3: Pay

Agent submits an
Arc USDC credential.

Step 4: Use

Mermail verifies payment
and returns the inbox.

Two discovery surfaces. One useful service.

Circle Agent Marketplace

Pursue a Mermail Agent Inbox listing with machine-readable endpoints and USDC pricing.

MPP services directory

Pursue a separate listing with an Arc-compatible payment method and a documented purchase recipe.

Arc builder pilots

Start with GTM, support, and purchasing agents that need an inbox to finish real tasks.

An existing product.
A focused Arc expansion.

1,204

Total Mermail users

12,493

Emails sent

Monetization: monthly plans + usage-based inbox and email purchases.

ROADMAP · OUR VISION

Grow with Arc. Build for the agent economy.

01 · CONNECT THE RAILS

Agent-ready payments

Deepen Agent Stack Wallet and CCTP integration.
Enable inbox purchases through MPP on Arc.

Fund → Pay → Get an inbox

02 · CONNECT THE ECOSYSTEM

Work across Arc

Pursue marketplace listings and integrations with Arc
wallets, payment services, and developer tools.

Discover → Integrate → Complete tasks

03 · SCALE AGENT COMMERCE

Everyday economic activity

Help agents buy services, manage support, and run
outreach—with email identity and user-controlled
payments.

More useful tasks → Repeat commerce

We believe agents will become everyday participants in the economy.
Mermail aims to be their communication layer across Arc.
